Heart of my heart
What can I say,
That has not shown
These many years?

And though time's march
Has left its mark
I love you still
My dawn, my day

Heart of my heart
Please keep me close
Hold tight our hands
Through fires and storms

Heart of my heart
As souls go on
They grow together
Through joys and fears.

And like the sun,
I can't see far
Without your smile
To light my way

May all our days
be like those past
Where you are mine
And I Am yours.
